EDITORIAL INDEX

Listing articles which have appeared in AUTOMOTIVE SERVICE DIGEST from March, 1957 through February, 1958

Month Page

ACCESSORIES

Installing ammeter ..... June 4
Starting car clocks ..... June 4
Lights to meters ..... June 28
Servicing heating systems ..... October 18

AIR CONDITIONING

Air conditioning—open field for service shops .. May 38
Overcharging can cause clutch failure and belt slippage ..... January 36

AIR SUSPENSION

A look at air suspension ..... December 12
"Level air" compressor check valve relocated ..... February 57

ASSOCIATION MEETINGS

40th annual N.A.D.A. convention ..... March 21
Shows dramatize industry's aftermarket potential ..... April 32
A digest of automotive service ..... May 18
25,813 attend Southwest Show ..... May 61
Sell the job . . . or lose it! ..... August 22
Independent Garage Owners Convention .... August 28
Top service personnel to attend N.A.D.A. Convention ..... December 70
Form "Automotive Refinish Institute" .... February 16
The Pacific Automotive Show ..... February 48

AUTOMATIC TRANSMISSIONS

TorqueFlite won't reverse ..... May 69
PowerFlite fluid level ..... May 78
Burns out solenoids ..... July 8
Correcting PowerFlite "runaway" ..... August 57
Checking Turboglide fluid level on air conditioned models ..... August 78
Automatic transmissions—(First of a series) ..... September 18
When overhauling PowerFlite, examine clutch retainer bushing ..... September 78
Planetary gears (Automatic transmissions—Part II) ..... October 48
Hydraulic controls (Automatic transmissions—Part III) ..... November 40
Don't neglect TorqueFlite oil level ..... November 45
Dual range Hydra-Matic (Automatic transmissions—Part IV) ..... December 46
Always use new nuts ..... December 71
Check for leakage past input shaft seal rings ..... January 78
Servicing the Powerglide (Automatic transmissions—Part V) ..... February 18
Reversing check valve aids Torque-Flite action ..... February 61

AUTOMOBILE SHOWS

Chicago auto show celebrates its 50th year . December 9
50th golden jubilee Chicago auto show . . . December 16

Month Page

AXLES

Rear axle bearing leaks ..... March 6
De Soto rear axle lube level ..... March 68
Chevrolet "Positraction" rear axle ..... April 70

BATTERIES

The dry-charged battery ..... April 33
More on 8-volt batteries ..... May 14
Junking batteries ..... July 4
Battery charge and discharge ..... September 77
A helpful tip on using battery fluid dispenser ..... February 76
Precautions to take when filling batteries ..... July 15
Servicing charging systems ..... September 12
Which car will stop first? ..... October 40
Which car will stop first? ..... January 8

BEARINGS

Still using too much oil? ..... April 46
Oil filtration—now more important than ever ..... May 48
Acid and friction—enemies of the internal combustion engine ..... September 28
Willys changes design of rear bearing oil seal ..... February 60

BODY RECONDITIONING

Pre-vacation check-ups ..... April 12
How to align sheet metal ..... June 12
"Futurize with 4-D styling" ..... June 44
Speeding up body repairs ..... June 56
Stopping seam leakage on convertible tops .... July 31
Repairing sheet metal with plastic solder ..... July 36

BRAKES

Servicing vacuum-power brakes ..... March 32
Air in brake lines ..... April 4
Pre-vacation check-ups ..... April 12
Servicing air-hydraulic brakes ..... April 42
Raybestos develops liquid-cooled brake ..... May 30
Servicing straight air brakes ..... May 56
Pressure exerted on confined liquid ..... May 77
Air in brake lines ..... June 4
Squealing brakes ..... July 4
Correcting hard pedal on power brakes ..... July 51
Why H-D brake fluid ..... August 4
Lining trouble ..... September 8
Air in brake lines ..... October 12
New adjuster assembly eliminates squeaks .. October 46
Quieting power brakes ..... October 76
Brake service—where quality is a must! .. November 37
Tests show steady brake action more effective ..... February 77

CAMSHAFTS

Camshaft reclamation ..... August 50

CARBON

A report on firing chamber deposits ..... July 52

EDITORIAL INDEX

CARBURETION

Engine won't idle . . . March 10
Carburetor icing . . . March 37
Adjusting idle on Golden Hawk . . . March 37
Servicing fuel pumps . . . March 38
Caddy has rough idle . . . April 4
How does choke work? . . . April 8
Pre-vacation check-ups . . . April 12
Vapor lock—what's being done about it? . . . April 22
Engine stops now and then . . . May 10
Adjusting Oldsmobile's J-2 Rocket carburetors . May 32
Oldsmobile's J-2 Rocket carburetors . . . June 32
First aid for automatic chokes . . . June 36
Supercharger action . . . July 4
Curing carburetor-caused knocks . . . July 21
Carburetor adjusting hints . . . July 46
Unchokes too quickly . . . August 4
Man made fuels out-do nature's best . . . September 40
Rochester carburetor improvements . . . September 49
Adjusting carburetors . . . October 8
Who pours water in the gasoline tank . . . October 30
Design and function of rochester carburetor auxiliary throttle valve assembly . . . January 74
That all-important heat control valve . . . February 47

COOLING SYSTEM

Change to a 6-blade fan? . . . March 6
1957 Dodge overheating? . . . March 37
Pre-vacation check-ups . . . April 12
Cooling system protection . . . April 18
Fan belts—do you check them regularly? . . . July 16
Air cooled cars . . . August 4
Sell complete winterizing now! . . . October 14
New fan prevents engine overheating . . . October 69
Trouble shooting the cooling system . . . November 30
Why radiators blow their top . . . December 30
Open *all* petcocks to drain cooling system . December 34
Blows its anti-freeze . . . January 8

CRANKCASE

Still using too much oil? . . . April 46
Water in crankcase . . . July 4
Removing and replacing the '58 Windsor oil pan . . . February 74

CYLINDERS

Installing De Soto head gasket . . . March 79
A report on firing chamber deposits . . . July 52
Preparing cylinders to receive piston rings . . . August 58
Acid and friction—enemies of the internal combustion engine . . . September 28
Combustion chamber turbulence . . . November 75

DIESEL

Starting the big ones on cold mornings . . . January 34

DIFFERENTIALS

Checking "non-slip" differentials . . . December 69

DISTRIBUTOR

Properly lubricated distributor needed . . . July 42
Don't overlook the breaker plate . . . July 66
Primary and secondary ignition circuits . . . July 75
A shocking experience? . . . August 15
Distributor *maker* points . . . September 10
Breaker plate affects point opening and cam angle . . . October 46
Installing distributors . . . December 6

EDITOR'S PAGE

Mechanics of the future—where from? . . . March 11
Classroom theory vs shop practice . . . April 11
A salute to our after-market manufacturers . . . May 17

Month Page

Train them to keep them . . . June 11
Replacement market expanding, not shrinking . July 11
Selling and installing extra equipment pays off . . . August 11
Essentials to consider for operating a shop . . . September 11
New-car designs favor ease of accessibility . . October 13
To sell them you have to tell them . . . November 11
Chicago auto show celebrates its 50th year . December 9
1958 general business outlook is good . . . January 11
We must look to our schools for help . . . February 13

ELECTRICAL

1957 electrical service data . . . March 47
Ignition coil construction . . . March 71
Pre-vacation check-ups . . . April 12
The hidden resistance . . . April 26
The dry-charged battery . . . April 33
Hot engine hard to start . . . May 14
Condenser capacities . . . June 8
Testing coils and condensers . . . June 66
Diagnosing charging circuit troubles . . . July 31
Primary and secondary ignition circuits . . . July 75
The generator-regulator tester . . . July 48
Some fundamentals to help you when servicing magnetos . . . August 16
Reverse polarity damage . . . August 37
How and why fuses blow . . . August 57
High tension polarity . . . September 8
Servicing charging systems . . . September 12
Battery charge and discharge . . . September 77
Replacement wiring . . . October 8
Magneto current generation . . . October 75
TVRS cable—don't let it throw you! . . . October 52
Ohm's Law . . . January 75

ENGINE REBUILDING

Installing a rebuilt engine . . . March 12
Still using too much oil? . . . April 46
Porting and relieving block and manifold . . . April 73
Meaning of crankshaft stroking . . . June 73
Marine engine service . . . July 38
More profits from valve service . . . August 44
Camshaft reclamation . . . August 50
Preparing cylinders to receive piston rings . . August 58
Acid and friction—enemies of the internal combustion engine . . . September 28
Milling heads and blocks . . . November 34
Your reputation hangs by a thread . . . January 56

EQUIPMENT

(See—Tools and Equipment)

EXHAUST SYSTEM

The exhaust analyzer—how it works . . . March 48
How to get better engine performance . . . April 54
Manifold heat valves—essential to efficient engine operation . . . April 57
Vapor from dual pipes . . . May 14
Heat valve operation . . . June 8

FILTERS

Oil filtration—now more important than ever . . May 48
Those new paper air filters . . . June 24
Air filtration—now more important than ever . . July 18
Are dry type air filters effective? . . . December 32

FUEL

Servicing fuel pumps . . . March 38
The exhaust analyzer—how it works . . . March 48
Vapor lock—what's being done about it? . . . April 22
Engine stops now and then . . . May 10
Improperly positioned filler tube vent air locks fuel tank when filling . . . May 60
Water in gas bowl? . . . July 4

	Month	Page
Where the gas dollar goes	July	8
Over 100 octane?	August	36
Man-made fuels out-do nature's best	September	40
Who pours water in the gasoline tank?	October	30
Starting the big ones on cold mornings	January	34

FUEL INJECTION

How to service the Rochester fuel injector	March	24
Why fuel injection?	June	30
Be careful when servicing fuel injection pumps	December	35
Interesting facts about fuel injection	February	76

GENERATORS

The hidden resistance	April	26
Six or twelve volt?	May	10
The generator-regulator tester	July	48
Servicing charging systems	September	12
Generator field current	September	57
Which car will stop first?	October	40
Polarizing generators	November	10
Stumped by generator	February	6

GLASS SERVICE

Installing glass?—here are some helpful hints	March	43
Replacing wrap-around windshields	November	46

HEADLIGHTS

Better lighting for safer driving	June	47
Aim to service . . . to sell . . . to live!	February	14

HEATERS

Servicing heating systems	October	18
Stopping leakage at heater blower housing	October	76

HORNS

New safety device "sees" horn of car behind	April	73

IGNITION

Reversing coil position aids cold starting	March	43
Ignition coil construction	March	71
Hard starting Cadillac	April	8
Pre-vacation check-ups	April	12
The hidden resistance	April	26
High tension polarity	May	14
Misses above 40 m.p.h.	June	4
Don't overlook the breaker plate	July	66
Primary and secondary ignition circuits	July	75
Setting Chevrolet V8 ignition timing	July	79
Curing Packard cross-firing	August	30
The Oscilloscope—how it works	August	70
The mighty mites of the ignition system	October	34
TVRS cable—don't let it throw you!	October	52
Plugs foul, points burn	November	8
Trouble shooting the ignition system	January	28
Oscilloscopes—seeing eyes of ignition	January	38

LIGHTING

Regulator setting too low	June	8
Better lighting for safer driving	June	47
Re-fusing lights that refuse to light	August	61
Aim to service . . . to sell . . . to live!	February	14

LUBRICATION

Pre-vacation check-ups	April	12
1957 Dodge V-8 lubrication chart	April	78
Removing anti-freeze from lubrication system	April	79
Additive oil	July	22
Effect of detergent oil	August	8
Acid and friction—enemies of the internal combustion engine	September	28
1957-58 Buick V-8 lubrication chart	December	78
Loss of oil pressure due to wrong gasket	February	71

MAGNETOS

Some fundamentals to help you when servicing magnetos	August	16
Magneto current generator	October	75

MARINE ENGINES

Marine engine service	July	38

MISCELLANEOUS

How to get better engine performance	April	54
A digest of automotive service	May	18
Specialized sealants	June	40
Back to school	June	52
"Phantom foot" for safer, easier car control	September	50
Make use of color in your shop	January	22
Locating cracks—the mechanic's invisible enemy	February	36
Make use of color in your shop	February	50

MUFFLERS

Short muffler life	April	8
Muffler blows, car stalls	October	8

NEW CARS AND TRUCKS

Ford trucks for '57	March	44
Jaguar's XK-SS	April	70
Edsel—starting from scratch	May	36
The Scotsman	July	42
The all-new Edsel makes its debut	September	24
Rambler for 1958	October	32
Chevrolet trucks for '58	October	54
Buick dealers to handle German-made Opel	October	77
Evaluating the 1958 models	November	12
Buick	November	14
Cadillac	"	15
Chevrolet	"	16
Chrysler	"	17
Continental	"	18
Corvette	"	18
De Soto	"	19
Dodge	"	20
Ford	"	20
Imperial	"	22
Lincoln	"	23
Mercury	"	23
Oldsmobile	"	24
Packard Hawk	"	25
Plymouth	"	26
Pontiac	"	27
Rambler	"	28
Studebaker	"	28
Edsel service highlights	December	26
Studebaker adds two new hardtops	January	16
Chrysler 300D	January	36
New Rambler American	January	54

PAINTING

"Futurize with 4-D styling"	June	44
Diversification helps shop profits	October	47
How to check spray gun efficiency	December	15

PARTS

Clear-Ex gives better engine performance	April	54
Fan belts—do you check them regularly?	July	16
Prolonging parts life with additive oil	July	22
Flat rate	July	32
Your reputation hangs by a thread	January	56
Locating cracks—the mechanic's invisible enemy	February	36

Month Page

PISTONS AND RINGS

Still using too much oil?....April 46
A real oil burner....May 10
Preparing cylinders to receive piston rings...August 58

RACING

Hanks wins "500"....June 42

RADIATORS

Cooling system protection....April 18
Checking radiator with vacuum gauge....July 46
Why radiators blow their top....December 30

RADIO SERVICE

Power output and the speaker....April 58
The RF circuit....June 70
Exploring the converter stage....July 76
Tracing signal and power output stages..September 74

REFRESHER COURSE

Ignition coil construction....March 71
Porting and relieving block and manifold....April 73
Pressure exerted on confined liquid....May 77
Meaning of crankshaft stroking....June 75
Primary and secondary ignition circuits....July 75
The Vernier micrometer....August 75
Battery charge and discharge....September 77
Magneto current generation....October 75
Combustion chamber turbulence....November 75
The meaning of inertia....December 71
Ohm's Law....January 75
Factors pertaining to the circle....February 75

SAFETY

A good shop is a safe shop....September 54
Sell customers on safety....October 45
To sell them you have to tell them....November 11
Aim to service . . . to sell . . . to live!....February 14

SCHOOLS

Classroom theory vs shop practice....April 11
Training Edsel mechanics....August 42
Up-grading mechanics....September 34
Diversification helps shop profits....October 47
We must look to our schools for help....February 13

SERVICE, SELLING

Roll out the red carpet—it pays off!....March 30
Sell the job . . . or lose it!....August 22
How's your salesmanship?....November 56
Look sharp . . . act sharp . . . be sharp!..December 42
Aim to service . . . to sell . . . to live!....February 14
Give it a "tune-up"....February 30

SHOCK ABSORBERS

Ride an even keel....August 38

SHOP LAYOUT

The importance of shop layout....December 36
Make use of color in your shop....January 22
Make use of color in your shop—Part II..February 50

SHOP MANAGEMENT

Roll out the red carpet—it pays off!....March 30
Strictly personal....March 37
Strictly personal....April 71
Tune-up can be good business in the small shop....June 18
Are you cashing in on one-stop service?....July 12
Flat rate....July 32
There's no profit in lost time....July 35
Service on the islands....August 12
Shop management....August 31
Essentials to consider for operating a shop....September 11
Up-grading mechanics....September 34
A good shop is a safe shop....September 54
Night service for trucks....October 26
Hiring new mechanics....October 56
How's your salesmanship?....November 56
Boosting production with incentive pay..November 60
Look sharp . . . act sharp . . . be sharp!..December 42
Finds it pays to "grow up"....December 77
Boost shop profits by cutting losses....January 44
Give it a "tune-up"....February 30

SPARK PLUGS

How to get better engine performance....April 54
Keep spark plug holes free of corrosion....May 61
The mighty mites of the ignition system....October 34
Your reputation hangs by a thread....January 56
Plugs not always to blame when engine misfires....January 59
Longer plugs needed on Dodge "L" series trucks....February 59

SPECIFICATIONS

1957 tune-up specifications....March 46

SPRINGS

Improving Plymouth ride....March 10
Checked those springs lately?....June 45
New type spring shackles improve Jeep ride...July 51

STARTERS

Six or twelve volt?....May 10
De Soto starter switch....June 35
When starter switch fails....November 29

STEERING SYSTEMS

Steering linkage....April 4
Overcoming shimmy on 4-wheel drive Jeep....September 23
Steering wheel alignment....November 59
Power steering no help....January 8

SUSPENSION

Ride an even keel....August 38
Ball joint replacement....October 76
A look at air suspension....December 12
Ball joint wear....January 8

TAX GUIDE AND BUSINESS BRIEFS

Tax saving now ready....March 58
What has gone before....April 41
Leased vs purchased equipment....May 46
Keeping up with your personal business....June 72
Figuring your depreciation....August 49
Suggestions for your business....September 46
Are illegal expenses tax deductible?....October 68
How to save on your 1957 taxes....November 70
End-of-the-year tax planning....December 58
Where to in 1958?....January 58
Expenses for travel and entertainment....February 58

TECH KNOW-HOW ARTICLES

How to service the Rochester fuel injector...March 24
Servicing vacuum power brakes....March 32
Servicing fuel pumps....March 38
Servicing air-hydraulic brakes....April 42
Adjusting Oldsmobile's J-2 Rocket carburetors..May 32

	Month	Page
Servicing straight air brakes	May	56
How to align sheet metal	June	12
Oldsmobile's J-2 Rocket carburetors	June	32
First aid for automatic chokes	June	36
More profits from valve service	August	44
Servicing charging systems	September	12
Automatic transmissions—a series	September	18
Servicing heating systems	October	18
Trouble shooting on the motor car	October	42
Planetary gears	October	48
Trouble shooting the cooling system	November	30
Hydraulic controls	November	40
Universal joint service	November	48
How to diagnose engine troubles	December	10
Dual-range Hydra-Matic	December	46
Trouble shooting the ignition system	January	2
Universal joint service	January	48
Servicing the Powerglide	February	18
Give it a "tune-up"	February	30
Servicing hydraulic valve lifters	February	40

THERMOSTATS

Cooling system protection	April	18

TIRES

Use care when installing 14" tires	April	31
Tires getting bad breaks	July	43
Tire thump—its cause and cure	September	26
Overinflation main cause of rough ride and tire wear	September	53
Nylon tire thump	October	51

TOOLS AND EQUIPMENT

Test equipment—how it works—		
The exhaust analyzer	March	48
The vacuum gauge and manometer	April	48
Compression and cylinder leak testers	May	52
Testing coils and condensers	June	66
The generator-regulator tester	July	48
The oscilloscope	August	70
Instrument combinations	September	68
How to increase shop profits with car wash service	May	42
Flat rate	July	32
How to use precision measuring tools	August	52
The Vernier micrometer	August	75
Trouble shooting on the motor car	October	42
How to diagnose engine troubles	December	10
How to care for electrical tools	December	52
The right tools on hand for the job	January	12
Oscilloscopes—seeing eyes of ignition	January	38
Locating cracks—the mechanic's invisible enemy	February	36
Make use of color in your shop	February	50

TRANSMISSION SERVICE

Rough overdrive	April	4
Overdrive won't downshift	April	4
Automatic transmissions	September	18
Dipstick readings vary	September	57
Planetary gears	October	48
Transmission noisy when decelerating	November	39
Hydraulic controls	November	40
Dual range Hydra-Matic	December	46
Correcting harsh shift on Corvette 4-speed transmission	February	16
Servicing the Powerglide	February	18

TROUBLE SHOOTING

Trouble shooting on the motor car	October	42
Trouble shooting the cooling system	November	30
How to diagnose engine troubles	December	10
Trouble shooting the ignition system	January	28

TUNE-UP

Profits from tune-up	March	28
1957 tune-up specifications	March	46
Pre-vacation check-ups	April	12
The vacuum gauge and manometer	April	48
Tune-up can be good business in the small shop	June	18
A report on firing chamber deposits	July	52
The oscilloscope	August	70
Sell complete winterizing services now!	October	14
Oscilloscopes—seeing eyes of ignition	January	38
Don't overlook valve lash	January	77
Give it a "tune-up"	February	30

TURBINE ENGINES

The gas turbine and free piston engine	April	34

UNIVERSAL JOINTS

Servicing universal joints	July	26
Universal joint service	November	48
Assembling U-joints	December	8
Universal joint service	January	48

VALVES

Still using too much oil?	April	46
How to get better engine performance	April	54
Valve grinding wheels	July	8
Installing distributor incorrectly causes noisy lifts	July	74
Exhaust valve failure	August	8
More profits from valve service	August	44
Noisy valve lifters	September	8
Sticking valves	September	10
Adjusting Willys valves	November	54
"Gallops" after overhaul	December	6
Valves get burned up, too!	December	18
Loss of valve adjustment	December	34
Valve grind job insurance	December	45
"Pops" on acceleration	January	71
Setting tappets cold	February	6
Loose valve seat inserts	February	6
Servicing hydrauiic valve lifters	February	40

VOLTAGE REGULATORS

The generator-regulator tester	July	48
Temperature influences on regulator settings	August	8
Servicing charging systems	September	12
Setting cut-out relay	November	8

WASHING

How to increase shop profits with car washing	May	42

WATER PUMPS

1957 Dodge overheating?	March	37
Leaking water pumps	February	59

WHEEL ALIGNMENT and BALANCING

Pre-vacation check-ups	April	12
Importance of wheel balancing	July	44
Tire thump—its cause and cure	September	26
Wheel balance by overbalance	November	53
Cash in on front end service	January	19

WINDSHIELDS

Installing glass? Here's some helpful hints	March	43
Replacing wrap-around windshields	November	46

WINTER SERVICE

Sell each and every customer complete winterizing services now!	October	14
Servicing heating systems	October	18
Starting the big ones on cold mornings	January	34

Where does the power go?.....July 30
How you can sell seat covers profitably..September 58

AIR COMPRESSORS

Service your shop air compressors.....December 56

AIR CONDITIONING

Chevrolet revises wiring harness used on air conditioning units.....March 69
Servicing air conditioners—Part I of a series..June 12
Part II—Basic shop requirements.....July 44
Part III—G.M. conditioning units.....August 44
Part IV—Servicing Chrysler units.....September 34
Part V—Ford air conditioning units.....October 58
Part VI—Servicing Rambler air conditioners.....November 48
Part VII—Servicing non-original equipment.....December 50

AIR SUSPENSION

Which way suspension?.....March 16
Certain precautions must be taken when towing cars with air suspension.....November 74

ANTI-FREEZE

It's time to de-winterize.....March 12
Provide winterizing in a package.....October 14
How to service a lube system contaminated by glycol anti-freeze.....October 75

ASSOCIATION MEETINGS

Record Pacific Automotive Show.....March 31

AUTOMATIC TRANSMISSIONS

Servicing the Fordomatic.....March 52
Flightomatic service tips.....March 73
Servicing the PowerFlite.....April 44
TorqueFlite noisy during "breakaway".....April 49
How to check for leaky torque converter cooler.....April 55
Use of wrong circuit breaker causes erratic shifting.....April 69
Plymouth recommends reversing of TorqueFlite front and rear check valve.....April 79
Servicing the Dynaflow.....May 50
Drain-refill subject to type of service.....June 43
Servicing Powermatic.....June 46
Special tool for adjusting Thunderbird Cruise-O-Matic.....June 77
Servicing the Flash-O-Matic.....July 20
TorqueFlite push button cable adjustment..August 42
Rough Dynaflow shifting.....January 11

AUTOMOBILE SHOWS

CATA's "Motorevue of 1959".....December 18

BATTERIES

New battery is old.....May 6
Battery runs down.....February 6

BEARING SERVICE

Adjusting Chevrolet front wheel bearings.....May 70
Correcting low oil pressure.....June 25
Rear bearing failure.....June 68
Front wheel bearing service.....November 22
Oil consumption control.....December 14
Servicing main bearings.....January 38
Servicing con rod bearings.....February 18

BODY SERVICE

Plastic patching technique cutting costs in body work.....April 68
Body and frame service.....July 48
Cleaning stainless steel trim.....July 74
Where "pull" really counts.....September 56
Using plastics in large panel repair.....October 57
Using the new finishes.....December 24
Preparing refinish surfaces.....January 24
Minor body repair jobs.....January 32
Replacement body panels.....February 50

BRAKES

Servicing the brake system.....April 34
Servicing the self-adjusting Edsel brake.....May 60
Master cylinders have built-in pedal stop.....September 53
No brake pedal.....November 70
Angular movement of brake shoe on drum.....November 75
Brake grabbing.....January 10

BUSINESS "KNOW-HOW"

So you want to open a shop?—Part I of a series.....April 30
Handling customer complaints.....April 24
Part II of a series—How, what and where?....May 30
Part III of a series—Laying out the shop....June 28
Part IV of a series—Purchasing equipment..July 24
Part V of a series—Merchandising.....August 38
Lighting the service shop.....September 16
Part VI of a series—Salesmanship.....October 22
Part VII of a series—Uncovering needs—awakening desires.....November 34
Part VIII of a series—Objections build sales.....December 20
Part IX of a series—Closing the sale....February 28

CARBURETION

Measuring vacuum ..... March 6
The stickinest valve ..... March 14
Engines must breath clean air ..... March 28
Engine will not idle ..... April 6
Idle adjustment procedure (Golden Hawk) ... June 45
Fuel control systems—Part I of a series ... August 52
Replacing choke piston eliminates engine stumble ..... August 57
Better gas mileage ..... August 73
Air-fuel flow in carburetor ..... August 75
Worn fuel pump push rod causes poor performance ..... August 78
Fuel control systems—Part III—Carburetion ..... December 44
The Carter AFB carburetor ..... January 18

CLUTCH

Single and two-plane balancing ..... August 14
Check overcenter spring adjustment for proper clutch operation ..... September 76
Clutch shaft roller bearing failure ..... January 43

COOLING SYSTEMS

"Freeze plugs" ..... March 6
It's time to de-winterize ..... March 12
Watchdogs of the cooling system ..... May 36
Provide winterizing in a package ..... October 14
Engine cooling principles ..... October 38
Pressure testing cooling systems ..... December 27
Water tube in block ..... February 6

CRANKCASE

Crankcase ventilator ..... June 6

CYLINDER WORK

How to prevent cylinder head leaks ..... April 52

DIFFERENTIALS

Water in differential ..... November 70

DISTRIBUTOR SERVICE

Timing is erratic ..... March 6
Checking pressure type distributors ..... October 43
Watch how you replace distributor cap .. January 50

DRIVESHAFT

Propeller shaft thump ..... June 6
Single and two-plane balancing ..... August 14
Servicing universal joints ..... September 48

EDITOR'S PAGE

Safety service is a year 'round job ..... March 11
Opening your own service shop? ..... April 13

GAUGES & INSTRUMENTS

Temp gauge always "hot" ..... May 8
Hooking up an ammeter ..... August 6
It can be done, but ... . November 71

GENERATOR SERVICE

Generator polarizing ..... April 78
Take it easy when replacing generator pulley ..... December 23
Generator burns out ..... February 8

HARD STARTING PROBLEMS

Hard starting ..... November 6
Starting balky engines ..... November 40
Won't start when warm? Readers make suggestions ..... December 10
Looking for trouble? ..... December 33
Hard starting Imperial ..... January 8
'49 Caddy hard to start ..... January 8
Engine starts hard ..... February 9

HEADLIGHTS

Lighting system trouble ..... July 6
When fuses blow, there's a reason ..... September 76

IGNITION

Breaker points burn ..... March 6
Why contact points pit and burn ..... March 21
Timing the ignition ..... April 10
Power starts with a spark ..... April 14
When trouble shooting the ignition system, don't overlook these important points .... April 54
Engine "rocks and rolls" ..... May 8
The case for tune-up ..... May 14
Ignition timing the '58 Ford cars ..... May 61
Ford timing marks ..... June 69
It could happen to you ..... June 76
Hot engine won't start ..... July 6
Where seeing is believing ..... July 34
Cross-fire ignition—what it means ..... July 75
Detonation can cause engine damage ..... August 6
Points keep burning out ..... August 70
Why dual breaker points? ..... August 71
Correcting warm weather spark knock .... August 77
When timing '58 Buicks, check distributor model ..... September 55
Always check timing after installing new points ..... September 70
Preignition vs. detonation ..... September 71
Checking pressure type distributors ..... October 43
Won't stay "timed" ..... November 6
Starting balky engines ..... November 40

INSTRUMENT CORNER

Failure to test ..... May 10
Ballast resistor trouble ..... May 10
High resistance causes kickback ..... July 8
Poor regulator ground impedes current flow .. July 8
It pays to be suspicious ..... August 10
. . . and it pays to test ..... August 10
It could happen to you ..... September 8
A simple test does it ..... September 8
Wrong number ..... September 54
Hard starting complaints ..... October 6
Common ailments ..... November 46
Rough idle trouble ..... January 37
Roughness traced to valve ..... January 37
Burns 12 sets of points in 6 months ..... January 61
A case of neglect ..... February 46
